## Wholesale charges 2018-19

*1 April 2018 to 31 March 2019*

Wholesale charging rules issued by the Water Services Regulation Authority (Ofwat) only apply to the charges that wholesalers make to retailers for the provision of services to business customers. However, for the purposes of demonstrating compliance with the price controls determined in respect of wholesale activities, Ofwat requires wholesalers (under Condition B (Charges) of their appointments) to publish all wholesale charges in one document.

This document is not a Scheme of Charges. All terms, conditions and descriptions of the services offered can be found within the two Schemes we have published on our website.

- Household customers should refer to the **Household Scheme of Charges**. Wholesale charges for households are included within the charges that apply to households.
- Retailers should refer to the **Wholesale Scheme of Charges**. Wholesale charges for non-households in this document are a copy of those published in the Wholesale Scheme.

This document is split into three:

- Part (1) is the wholesale charges that are included within household bills.
- Part (2) is our primary wholesale charges for retailers supplying eligible premises within the non-household market.
- Part (3) is our non-primary charges for retailers or other customers.

Part 1 charges are not available to any customers as households are not eligible to participate in the retail market. Parts 2 and 3 replicate information included within our Wholesale Scheme.
